</tbody>
</table>
| **Objectives** | • Year 4-7 students are engaged with technology across the curriculum through the Bring Your Own Device initiative.  
• R-3 students are engaged with technology across the curriculum supported by an increased accessibility to IPad technology.  
• R-7 student reporting is facilitated with reference to the Digital Technologies learning area of the Australian Curriculum.  
• All students demonstrate improved safe practices involving digital safety that includes online anti-bullying and anti-harassment behaviours. | |
| **2016 Smart Targets** | 4.1 70% of year 4-7 students use BYOD opportunities to enhance their learning.  
4.2 All R-3 students are assisted by teachers who have sound pedagogical practice in the use of iPads to support learning.  
4.3 All students are participating in learning based upon the new Digital Technologies curriculum.  
4.3 All students take part in digital safety activities within classroom programs. | |
| **2016 Process Target** | • Continued policy development that includes year 4 expansion of BYOD program for students.  
• All students and staff participate in digital safety presentations from recognised professional organisations, such as ACMA.  
• Additional IPads are purchased to support just in time student learning outcomes.  
• Teachers are trained in consistent practices that support the implementation of ACER online testing and Sentral student management systems. | |
